1. There were about 35 independent plants subordinate to the Main Administration of Electrical Engineering, of the Ministry of Heavy Industry:
 - a. MEZ Bilcice /N 49-52, E 17-34/. This plant produced bakelite castings for the electro-technical industry. There were about 300 employees in the plant. I believe that this factory was subordinate to MEZ Postrelmov.
 - b. MEZ Postrelmov /N 49-55, E 16-55/. I do not know anything about this plant.
 - c. MEZ Nachod /N 50-25, E 16-10/. There were about 900 employees in this plant. Dynamos and electric motors were produced here.
 - d. MEZ Zidenice [REDACTED].
 - e. MEZ Frenstat pod Radhosten /N 49-33, E 18-33/. Production was comprised of heavy electric motors (25 KW and up) and transformers.
 - f. MEZ Mohelnice /N 49-47, E 16-55/. I do not know the production. This plant was the center for the youth cadres for all the MEZ plants.
 - g. MEZ Vsetin /N 49-20, E 18-00/. Production included transformers and electric motors.
 - h. MEZ Brumov /N 49-06, E 18-02/. This plant produced generators and electric motors.
 - i. MEZ Drasov /N 49-20, E 16-29/. Production was composed of transformers.
